THE PANORAMIC PATH OF THE GAZON DU FAING

In the simplest way possible, this panoramic loop is an invitation to a change of scenery! Measure the extent of the Tanet-Gazon du Faing nature reserve and quickly reach its summit at 1302m of altitude. The icing on the cake is that you may even have the chance to see the Bernese Alps in the background.

DEPARTURE: parking of the restaurant Gazon du Faing

MARKINGS:

DESCRIPTION

1

From the parking just in front of the Restaurant "Gazon du Faing", go straight up towards the ridge following the green ring/scenic path. The trail ends above the "Lac des Truites".

2

Continue to the left along the entire ridge until you reach the top of the Gazon du Faing.

3

From the summit, continue to the right towards the Col du Calvaire (red rect.) for a short kilometer.

4

At the next intersection, take the path on the left that crosses the nature reserve in the middle of the wild moor. Continue on this path until you reach the starting restaurant.

The nature reserve of Tanet-Gazon du Faing is a protected area that covers 505 hectares (about 707 soccer fields). You see how big it is!
