# THE TOUR OF THE 2 LAKES FROM ORBEY

One of your greatest satisfactions will be to reach the lakes on foot from Orbey, a village at the foot of the mountains. You will not regret it if you turn this sporty hike into a day-long adventure in the fresh air with a picnic break at altitude.

DEPARTURE: Orbey town hall

MARKINGS:     

## DESCRIPTION

- From the town hall, go straight up towards the market place. Continue following the blue sign. A little higher up at the crow's feet, turn left towards "LAC NOIR" following the red/white/red rect. for a long time.
- At the place called Pairis, follow the road for a short while to find the path again. After the fish farm ponds, the path leads to the road. Cross the road and the rest area. Go straight up to the Lac Noir.
- At the car park of the lake, turn left and follow the blue round markings towards "GRAND TOUR LAC NOIR". Go up to the source of the lake. Go straight on until the intersection with the yellow cross that leads you to the Belmont observatory. Go back and forth to the viewpoint.
- Return to the path and continue until you reach the Lac Blanc. Turn left following the red ring that runs along the whole ridge. At the other end, go back down to the Col du Calvaire following the red rect. (GR5)
- Cross the road and take the path on the right marked blue towards "ORBEY". Pass in front of the Blancrupt inn. Continue with the same markings until Orbey. When the path ends on the road to Remomont, turn right and continue down the road to reach the town centre.
