The "Sucre-salé" (Salty-sweet) tour goes off the beaten path, from the vineyard of Molsheim and Mutzig to the nearby state forest. History buffs take note: a detour by the Fort of Mutzig should be made, but keep in mind that you will need about 2.5 hours for a guided tour. If you have a sweet tooth, you may also want to stop by the honey house of Dinsheim-sur-Bruche. We have many other nice things to discover on the way. As for the cultural heritage, it can be pretty exceptional as well. For example, in Niederhaslach, we have the St. Florent Abbey, a jewel of Neo-Gothic architecture. Further East, deep into the forest of Oberhaslach, can be found three holds: the Castle of the Nideck (with the Nideck Falls Close by), the Castle of Hohenstein and the Castle of Ringelstein. For those who prefer water, let us not forget about the spa center in Soutz-les-Bains. Last
